

Utica Torque Assurance & Repair Program

The goal of any fastening application is to maintain a high degree of accuracy. This can only be accomplished with equipment that is regularly maintained and calibrated. Six Sigma results are possible with tools that meet both high technical requirements and follow a regular calibration and certification schedule. Who then has more expertise to service your Utica equipment than a qualified Utica technician?

Utica Calibration & Repair is your documentation that the torque products used on your floor are both accurate and reliable. Using NIST-traceable standards, Utica calibrations meet all ANSI requirements and provide NIST traceable certificates with every repaired or calibrated tool. Standard turnaround time is only 5 days, and rush 24-hour delivery is also available.

As a general rule, it is recommended that torque products be calibrated every six (6) months. However, quality objectives, degree of usage and other application related details will determine the calibration frequency for your organization.

Contact your local Utica Distributor today to begin your Torque Assurance Program.

Utica 2005 Flat Rate Calibration & Service Schedule

Warranty

Utica tools and analyzers that are calibrated will carry a 90-day warranty. This warranty is limited to calibration. This warranty does not extend to any product which has been altered or abused. Cooper Power Tools does not warrant the merchantability of its products and does not make any warranty, express or implied, other than the warranty contained herein. We reserve the right to determine when a product cannot be calibrated, or repaired, and return it to the sender without re-calibration, or repair.

Calibration & Repair Return Procedure

1. Contact Utica Customer Service at **1-800-845-5629**, Fax **(803) 359-0822** for a Returned Goods Notification Number (RGN) prior to returning the item for calibration or repair.
2. Send a purchase order to Utica Customer Service referencing both the RGN number and the model number of the item being returned.
3. The RGN number must be listed on the outside of the package.
4. Customer Service will direct your shipment to:
Cooper Power Tools, 600 Defiance Avenue, Hicksville, OH 43526
