

MP4425 6" Two Handed Random Orbital Sander

One of the world's best industrial sander lines is getting even better! Cooper Power Tools is excited to announce the introduction of a new Master Power pneumatic random orbital sander. The new tool is designed with an excellent power-to-weight ratio to make your sanding applications easier and more productive.

Features of the new MP4425 random orbital sander include:

- 6" disc capacity
- 9,500 maximum RPM speed
- Non-vacuum
- Lightweight, composite materials to avoid operator fatigue
- Removable handle that can be placed for right hand or left hand operation
- Throttle allows for precise feathering to produce the best possible finish
- Built-in air regulator for optimum operator control
- Easy-to-service design

MP4425 6" Two Handed Random Orbital Sander
